Subject Index for Past 12 Issues

Detailed Listing of Articles Published in Year

• *On this page* and following pages, THE FEED BAG presents a comprehensive index of the articles which have appeared in its issues during the preceding year, from De. . . , 1951, through November of 1952. Popularity of this index when it appeared for the first time last year has prompted continuance of the service.

Not all articles and news items of the past year are included in this index. Major articles and talks, however, are listed. Also included is a listing of the subjects of the Feed for Thought page, of the research reviewed in the Feed Nutrition Digest, and the monthly feature, Burke on Busines.

Every merchandising article concerning a feed retailer which was published during the first 11 months of 1952 is included. Authors of articles are listed separately from the titles of their articles for easier reference.

The number immediately following the month in each listing indicates the page in that month's issue on which the subject can be found. Feed men who may be missing certain of these past 12 issues may write concerning extra copies to THE FEED BAG circulation department, 1712 W. St. Paul av., Milwaukee 3. Additional copies are available for most of those issues.

Readers' comments on the index have proved valuable in compiling this second listing and continued comment will assist the staff in improving the service. Please let the staff know whether or not the index proves useful to you.

(Please keep in mind that the December references refer to the issue of December, 1951.)

FEED NUTRITION DIGEST

Baby Chicks
Chick growth response to different levels of methionine and protein supplements added to a low methionine diet, Sept., 41
Comparative effect of antibiotics on the growth of poults, Feb., 33
Comparison of B_{12}, fish solubles, and whey in the growth of chicks, June, 32
Effect of increasing concentrations of terramycin on the growth and intestinal microflora of chicks, Oct., 43
Effect of vitamin B_{12} intake of hens upon carry-over in chicks, Nov., 41
Effect on growth of supplements to chick rations containing vitamin B_{12} and antibiotics, Aug., 41
Modules of ground corn in a corn-soybean oil-meal chick starting ration, Sept., 42
Niacin requirements of young chickens, June, 32
Relationship of choline and cystine to the methionine requirement of very young chickens, Feb., 34
Tryptophan requirements of young chickens as influenced by niacin, June, 32
Utilization by the chick of vitamin A from different sources, Dec., 45

Cattle
Balancing the nutritional deficiencies of roughages for beef steers, Nov., 42
Methods of feeding cane molasses and urea to beef cattle, Jan., 33
Seasonal variations in the feed and water intake of cattle, May, 33
Supplementation of milk replacement with enzymes and other products, Feb., 33
Value of ammoniated condensed distillers molasses solubles as a feed for beef cattle, Jan., 76
Value of vitamin B_{12}, DL methiomine and potassium penicillin in milk replacement formulas for dairy calves, Oct., 44

Chickens
Effect of antibiotics on the protein requirements of broilers, Nov., 41
Effect of antibiotics on the protein requirement ascaridia galli infections in chickens, Dec., 45
Effect of dietary antibiotics upon feed efficiency and protein requirement of growing chickens, May, 33
Effect of penicillin in the diet upon experimental ascaridia galli infections in chickens, April, 37
Effect of periodically increasing the level of calcium and/or vitamin D on the performance of laying pullets, March, 31
Effect of protein and penicillin on the growth and intestinal flora of chickens, Aug., 42
Effect on production and hatchability of feeding laying pullets Sulfaquinoxaline at the 0.433 level, Aug., 41
Effects of antibiotics on the growth of white Leghorn pullets, Sept., 41
Effects of antibiotic agents upon experimental eimeria tenella infection in chickens, March, 31
Feeding space requirements of laying birds receiving a mash, grain, and supplementary pellet ration, May, 33
Relative susceptibility of chickens of different ages to coccidiosis caused by eimeria necatrix, April, 37
Requirement of breeding hens for sodium chloride, May, 33
Salt additions to chick rations, March, 31
Supplemental methionine in the diet and growth of parasitized chicks, March, 31
Vitamin B_{12} requirement of New Hampshires (1). Influence of maternal ration on requirement of progeny, Nov., 41
Vitamin B_{12} in the nutrition of the laying hen, July, 41
Vitamin B_{12} requirement of New Hampshires; requirements of laying pullets, Sept., 41

Egg Production
Effect of vitamin B_{12} supplements and antibiotic feed supplements on egg production and hatchability, Aug., 42
Effects of vitamin B_{12} and thyroprotein on egg production, egg weight, shell quality, and hatchability, May, 33
Estimate of the methionine requirements for egg production, Sept., 41

Ducks
Studies in duck nutrition, IV. Bowed legs in ducks caused by niacin deficiency, Sept., 41

Feed Ingredients
Effect of drying temperature on the folic acid content of herring meal, Oct., 43
Raw vs. processed corn in niacin-deficient diets, Dec., 45
Some factors which affect utilization of vitamin A., March, 32
Soybean lecithins and vitamin A utilization, May, 37
Stability of carotene in mixed feeds, March, 31

Lambs
Vitamin E deficiency in the lamb, Jan., 33

Sheep
Vitamin B_{12} vs. vitamin $B_{12}b$ for cobalt-deficiency sheep, Jan., 76

Swine
Comparison of growth responses of two-day-old pigs to streptomycin, aureomycin, and crude APF, alone and in combination with B_{12}, July, 41
Effect of nicotinic acid, vitamin B_{12}, and aureomycin on growth of pigs, Dec., 46
Effect of vitamin B_{12} and aureomycin concentrates on the growth rate of unthrifty weanling pigs, May, 37
Effect of vitamin B_{12}, aureomycin, streptomycin, or dried whey factors on the growth and fattening of weanling pigs, June, 31
Effects of stilbestrol and testosterone pellets implanted into growing-fattening pigs, Feb., 33
Growth effect of various antibiotics on baby pigs fed synthetic rations, Oct., 43
Re-evaluation of protein requirements of growing-fattening swine as influenced by feeding an antibiotic, Aug., 41
Response of growing-fattening pigs to bacitracin, aureomycin, and other supplements, June, 31
Riboflavin requirements of growing swine, Jan., 33
Supplementary value of riboflavin, calcium pantothenate, and niacin in a ration for weanling pigs in dry lot, Dec., 46
Value of low and high fat corns for fattening hogs, Jan. 76

Turkeys
Starting diet as a factor in edible quality of turkey, July, 41
Studies on the enlarged hock disorder in turkeys, Feb., 34
Vitamin B_{12} and antibiotics in the diet of turkey poults from hens fed no animal protein, June, 32
